

Micrography Contest

Recognising the significance of microscopy and related imaging techniques in Characterisation, Processing and Property-evaluation of materials, ICPCM has decided to organise 'Metallography/Micrography Contest' every year.

Registered delegates and interested participants are invited to submit entries for 'Metallography/Micrography Contest' under the following categories:

1. Category 1: Light Microscopy
2. Category 2: Scanning Electron Microscopy
3. Category 3: Transmission Electron Microscopy
4. Category 4: Atomic Force Microscopy
5. Category 5: Scanning Tunnelling Microscopy
6. Category 6: Other Advance and unconventional Microscopy

Last date for receipt of entries is **15th November 2018**

Rules and Guidelines:

Delegates participating in conference need not pay any registration fee to participate in this contest. Other participants required to pay INR 1000/ USD 50.

Maximum entries allowed per individual are 1 in any one category, and 3 in all categories.

Any interested delegate or interested in participating in this contest is required to make an **online entry** through the conference website.

ICPCM would like to acquire the 'copy right' on award winning entries and reserves the right to publish.

Submission:

Details of micrograph required for submission are

- (a) Caption for image and description of micrograph (30 words maximum)
- (b) Equipment details such as Make, mode, magnification, micron bar
- (c) Material/Processing details
- (d) Sample preparation details

Online Entry

ICPCM registered users have to LOGIN using their existing credentials, fill in their payment details and upload the required files. You are required to upload 2 files; one IMAGE file i.e. the micrograph and the other containing the requisite details of the micrograph.

NEW users have to create an account and make the required payment. Then they can fill in their payment details and upload the required files. You are required to upload 2 files; one IMAGE file i.e. the micrograph and the other containing the requisite details of the micrograph.
